

## **MVLA Green School Summit**

Come to be inspired by the students, who will be presenting their ideas at the first local Green School Summit in Los Altos on **Thursday, January 21st from 3:30pm to 5:30pm.**

Students from our K-14 schools will be spotlighting unique Green Actions and Activities that can be implemented at your school campus or at home to Reduce, Reuse, and Recycle, as well as Organic Gardening projects.

An exhibit and display board section will add to the event. Find convenient local drop off locations for recycling batteries, wire hangers, those pesky packaging peanuts! Be impressed by the sometimes surprising things made from recycled materials - sox made from recycled coke bottles!?!

Learn about super Green Fundraising projects, Green resources, and more.

The Green School Summit will be held in the **Eagle Theater** at Los Altos High School, 201 Almond Ave, Los Altos 94022-Thursday, January 21 from 3:30-5:30.
