### Testimonial of a Covington school parent

I love this program. The teachers are constantly keeping the parents apprised of their classroom teachings. My son loves this class and has repeated the program twice now, of his own asking. Where else can your child dissect and learn about the parts of a shrimp while learning to pickle the shrimp in citrus to make an edible mini-ceviche? My child runs home with surprises to share after each class. I delight in programs such as this that challenge a young mind because they are FUN and FASCINATING by design.
